

Auxiliary components

Rigid connectors HAUG

Utility

Adaptive universal ball adjustable fixing clip

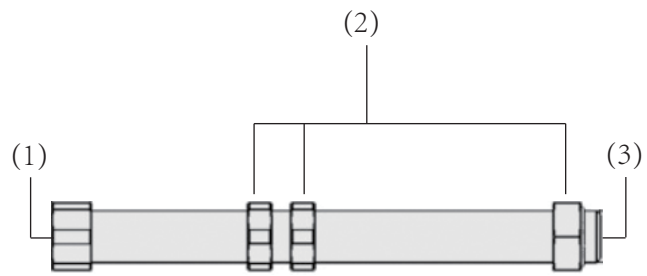

Product characteristics

- *Adjustable height and tilt
- *The suction cup can be directly installed on the crossbeam, requiring small installation space
- *Can be connected to a spherical clamp or directly installed on a standard mounting bracket

Product structure

- *(1) Pipe threads for vacuum circuits
- *(2) Tighten nut X3
- *(3) Suction cup thread

Product advantages

- *Short debugging time, fast and simple
- *Strong adaptability and wide range of applications
- *Perfectly fitted spherical clip structure

* HAUG case
